Franchi sets a new standard for everyday use rifles with the Momentum All-Terrain Elite. It has all the accuracy-enhancing, recoil-mitigating features found in other Momentum firearms, but is optimized for carry in a truck or ATV as your constant companion. Both the .223 and .308 models can shoot their 5.56 and 7.62 NATO counterparts. The sleek, modular stock has a low-rise comb and is equipped with M-LOK and QD sling attachment points. It's topped with a long, free-floated Picatinny rail so you can mount optics traditionally, or in a scout rifle configuration. Flip-up adjustable sights give you multiple sightpicture options. The threaded, free-floating 18-inch barrel comes with a muzzle brake and is ready to accept your suppressor. A 10-round Magpul® AICS magazine is included, and a number of aftermarket options are available to customize the fit and feel of your rifle.

Take the popular Affinity 3, optimize it for women's physical structure and you get the Affinity Catalyst. No, it is not a renamed youth model, as is true with other brands; it is the result of a scientific study aimed to deliver professional-level performance for women. The heart of the concept is the stock-drop, cast, pitch and length of pull. As women's cheek-bones sit higher than men's, the comb is raised to achieve eye-alignment with no need to lift the head. Also, the special cast makes it easy to shoulder. In all, the Affinity Catalyst will give women the feel and function that serious shooters expect of their firearms.
